About the Group

1st Fordingbridge Scout Group is a vibrant and friendly Group that offers a wide variety of adventurous and educational activities for boys and girls aged between six and eighteen.

All sections of Scouting are represented – Beavers, Cubs, Scouts and Explorers. Each of these sections is run by a team of qualified leaders who are ably assisted by a committee made up of parents and other supporters.

The Group was established in 1910 and since this time we have been an integral part of the local community. Today, we have over 80 young people involved in Scouting on a weekly basis.

As well as the regular weekly programme of activities, we offer our young people a wide variety of other organised events including trips out, camps, and, expeditions.

The Explorer Scouts also participate in the Duke of Edinburgh's Award Scheme – Their leaders are trained assessors for the expedition section of this award.

They also aim to take part in one international Scouting event each year and are actively planning a trip to Denmark in 2017.

Our Scout Group also holds a very popular family camp each year to which everyone involved in the Group is invited.

1st Fordingbridge Scouts involves itself in many local community events, including the Fordingbridge Festival during the summer and the Christmas Parade including the late night shopping event. We also run the local charity Christmas postal service as one of our many fundraising initiatives.

Our headquarters building is located in the heart of the town. In 2015, we began an ambitious programme of refurbishment and upgrading. We are very fortunate to have already received a number of grants from both local and national organisations, including the National Lottery. So far, this has enabled us to replace the aging asbestos roof dating back to the 1950's.

Further fundraising efforts to improve our facilities are ongoing.....

Due to our location on the edge of the New Forest National Park, the Scout Hall is very popular with visiting Scout Groups and Duke of Edinburgh Award expeditions. These groups use our facilities as a base for their adventures in the New Forest and surrounding countryside.

We also have a number of other local societies and organisations who regularly use our facilities.

Removed existing asbestos roof, from the early 1950's, which was leaking, flaking, causing damage internally due to water ingress.

Replaced with modern roofing material, including additional insulation and with a more aesthetic look on the inside and outside.

Our plan to upgrade the HQ

Following on from the successful re-roofing of the building last year, the Scout group would like to refurbish the existing building to bring it up to a modern standard in terms of access and facilities for children of all abilities.

The current building was never designed with this brief and as such performs poorly in a number of key areas. To facilitate, the building requires alteration and modest extension. The majority of the re-organisation is internal however a small extension to the west elevation is proposed.

Access to the building

Front view

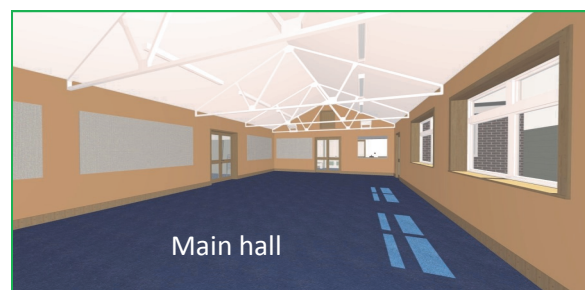

The building is currently accessed via a narrow ramped pathway. We are proposing to lessen the steepness of the ramp to improve access.

The current entrance is at the back of the building, this is a narrow single door which has a stepped threshold. We propose to relocate the main entrance at the front of the building providing a level access entrance door. The doorway will have a level landing area accessed by a compliant ramp and wide double door access with new glazed doors to improve visibility. The entrance will have a new canopy to provide weather protection to building users.

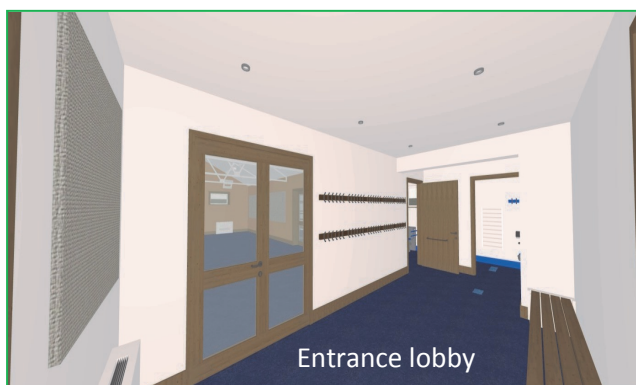

Disabled compliant circulation

Currently as you enter the building you are brought into a narrow long corridor straight into the hall. This is a claustrophobic area for all users and visitors and becomes severely congested when parents come to collect their children. Relocating the entrance to the front of the building provides the opportunity to create a generous lobby area which has a number of benefits:

- ➡ Improved access for disabled users allowing proper manoeuvring and operation of the entrance door.
- ➡ Improved circulation space for users allowing better access to other facilities and allowing free movement for able and assisted users of the building simultaneously.
- ➡ Provision of a separate waiting area for parents and carers at pick up and drop off times.
- ➡ Child Safety, separating the entrance and activity spaces allowing better safeguarding.

Main hall

Entrance lobby

We also have to consider external circulation and access to outdoor activity spaces. At present this is again accessed by the narrow entrance door. This poses access and safeguarding issues as there is poor visibility between the two activity spaces. The proposal seeks to address this issue by directly connecting the hall and outdoor activity space through the current store area via a pair of glazed double doors. Again an access ramp is provided to the outside space. As the store building is constructed to a low specification it is proposed that this is re-built. This new side access provides better access to the storage area making loading and unloading of the Scouts camping equipment easier and safer, with alternative access points permitting activities in the hall to continue uninterrupted.

Disabled compliant facilities

The existing facilities are confined and out of date and do not meet the required standards for disabled users. The kitchen has been relocated and enlarged to permit better access and facilities for users which also improves safety by separating the kitchen from the hall with access via a hatch, to stop children entering the kitchen unsupervised. The larger kitchen permits supervised groups to participate in cooking activities, and better observation between the two spaces. To accommodate the relocated kitchen and office, which permits the relocation of the entrance, a single storey side extension is proposed.

Fundraising has already commenced and some funding has already been secured.

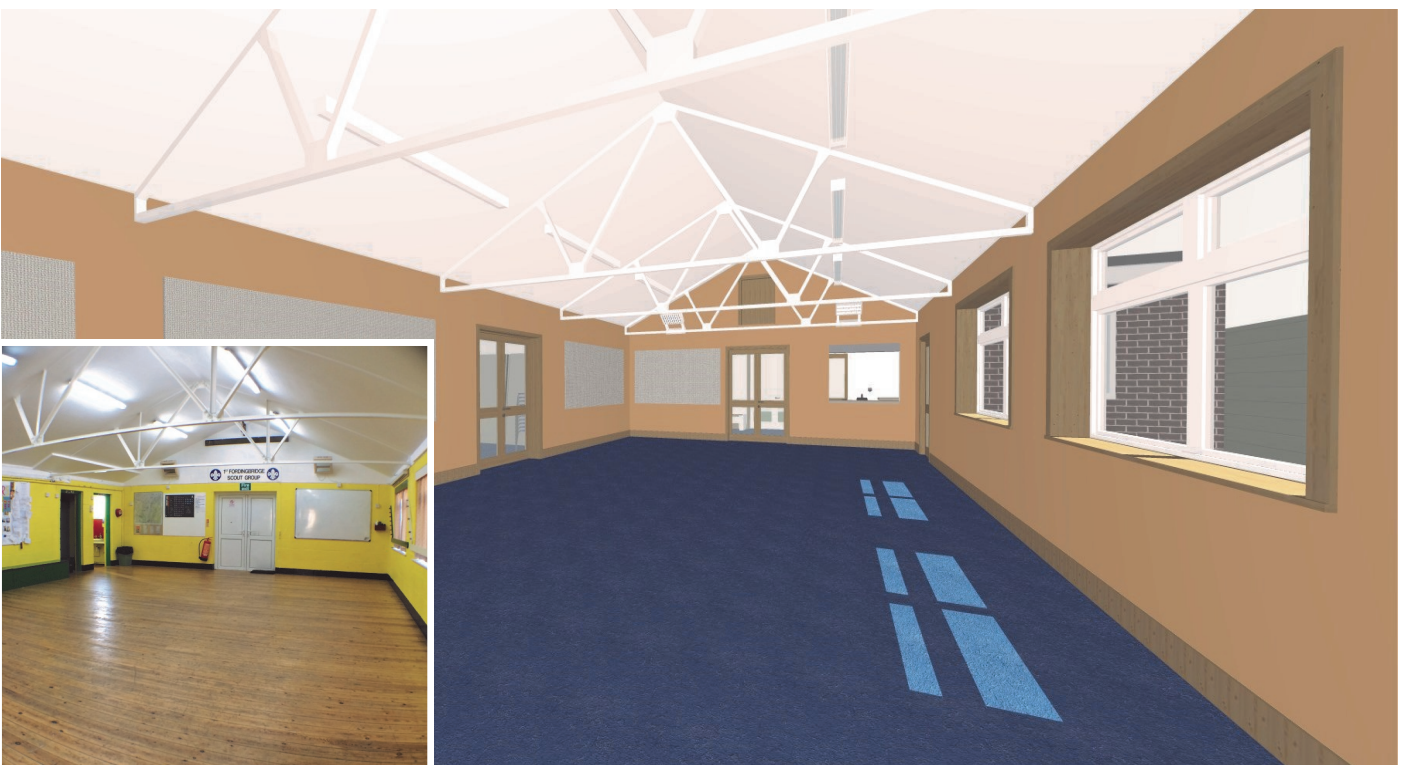

As this will be a fairly major overhaul of the building, it is proposed that the project be phased into two parts. This initial phase will be the replacement of the current store building and the upgrading of the toilet facilities. The following phase will be the kitchen and office extension plus the re-organisation of the hall to form the new lobby and entrance.

The overall objective of these works is to enable the Scout group to offer Scouting to children and young adults of all abilities in the Fordingbridge area.

Scouts raising roof in £35k campaign

By Katy Griffin

THERE are exciting times ahead for 1st Fordingbridge Scouts after it raised £35,000 to complete the first phase of work to revamp its headquarters.

A special ceremony was held on Saturday to celebrate the completion of work to replace the ailing and leaky roof at Roundhill Hall.

The scouts raised money for the project themselves — holding a variety of fundraising activities including bag packing, raffles and quiz nights. Assistant scout leader Derrin Berry raised more than £2,500 when he took part in his first tandem skydive.

Grants and sponsorship were obtained from a number of organisations, which included £10,000 from the National Lottery Big Lottery Fund.

A donation of £600 from Ringwood and Fordingbridge Lions Club was given to the Scouts during the ceremony on Saturday.

1st Fordingbridge Scouts group chairman Martin Smethers said the project so far would not have been possible without the support of sponsors, parents, and scout leaders as well as the community.

He said: "We have got really ambitious plans for the future. We have got in the region of £7,000 left over from the initial appeal,

1st Fordingbridge Scouts celebrate the "topping out" of their new roof.

which is a good base to start our future work."

The next phase of the project will see the toilets and showers revamped and disabled facilities added to make the hall more user-friendly. The group hopes to carry out work both to the inside and outside of the building to smart-

en it up.

"It will enhance the facilities and make it much more accessible," added Martin.

Fundraising efforts will continue and the group hope work on the next phase of the project, which has been estimated at about £60,000, can start as soon as

possible.

Anyone who can help with fundraising is asked to contact Martin by emailing martin@fordingbridgescouts.org or calling 01425 652196. For more information go to fordingbridgescouts.org.uk
